Many new pieces, destined to please as long as music lasts, may be found on its pages, and also many of the old and tried melodies, hallowed from associated recollections of sanctuary delights, and far more welcome to the heart of the worshipper than others frequently substituted for them.

The mechanical execution of the work is superior altogether to the majority of Eastern Music Books, and the price much lower.

THESE Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispending to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

OUR REPRINTS versus ECLECTICS, &c. New Grocery Establishment OUR REPRINTS versus ECLECTICS, &c.

As we have for many years been paying more than \$3.000 annually to the British Publishers for the matter furnished in these Periodicals, thus virtually becoming copartuers with them in the profits of the Reprints, we trust the public will consider this in bestowing their patronage, and give us the preference over Eelectic and over patch work publications, whether monthly, or weekly, which now extract so liberally from our works and pay nothing either to the Foreign Publishers or to us for the same. As to cheapness nobody can complain of paying \$10 a year for the four leading British Reviews and Blackwood's Magazine, and by taking these works entire, subscribers are not obliged to be guided by others in the choice of the articles they may desire to read. Moreover, taking into consideration the style in which our Reprints are published and their acknowledged fidelity to the original editions, and also the advantage of an early issue by means of the advance Sheets—our series will be found as cheap as any of the competing publications to which we have alluded.

IT is known by a few individuals in the counties of Jefferson. Shelby, and Oldham, that I have a remedy that effectually cures Hooping-Cough. If there are remedies in America or Europe that cures, it is not within my knowledge, (except the one I use.) Physicians tell the families they attend it can't be cured. I have no doubt they are candid in what they state. To get the medicine in use, and lull to sleep a deep-rooted prejudice, the faculty are invited to get the medicine, and save the little innocents whom they attend, and tell them no more it cannot be cured. THE VESPER GAS

AIR LIGHT, The Cheapest, most Brilliant, and most Convenient Artificial Light in the World!

most Convenient Artificial Light in the World!

The Vesper Gas Light has won for itself a reputation for elegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixture is so simple that it is not lable to get out of order, and a child can manage it readily. The gas burned in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, there teing no flicker or unsteadiness in the flame. The Vesper Gas Light is portable, and can be used in towr or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single-light burner to the most cosily chandelier. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single-light burner to the expensive chandelier, are miniature gas—works in themselves. They are sold at prices which do not exceed the cost of the ordinary gas fixtures of similar style and ornamentation. A price list will be sent to any address on application.

THE NEW AMERICAN CYCLOPÆDIA:
A popular Dictionary of General Knowledge. Edited by George Ripley and Charles A. Dana, aided by a numerous select corps of writers in all branches of Sciences, Art, and Literature This work is being published in about 15 large octavo volumes, each containing 750 two-column pages. Vol. I. III., III., IV., & V., are now ready, each containing near 2,500 original articles. An additional volume will be published once in about three months.

Price, in Cloth, \$3; Sheep, \$3 50; Half Mor., \$4; Half Russia, \$4 50 each.

The New American Cyclopædia is popular without being superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh and yet accurate. It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics on which they speak. They are required to bring the subject up to the present moment; to state just how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views; the biographical notices not only speak of the dead, but also of the living. It is a library of itself.
